

# Hack the Pentagon For Vendors

October 2022

We are always looking to partner with organizations that maintain a robust community of ethical hackers. We rely on our industry partners, including but not limited to small businesses, to make our program successful.

See the below to understand the requirements for being registered as a small business and/or Federal contractor, to work with DDS.

## How To Work With Us

### **1. Learn About The Process**

#### **The U.S. Small Business Administration**

We are excited that you would like to become a vendor partner to help with future Bug Bounties. To register as a small business: start the process by visiting the U.S. Small Business Administration to learn about your requirements.\*

[Visit SBA.GOV](https://www.sba.gov) →

\*DDS/CDAO do not have any involvement in this process

### **2. Register**

#### **Sam.Gov**

After learning about your requirements, visit Sam.Gov to start your registration towards becoming a federal contractor.

Some of the steps\* necessary include:

- Registration and receipt of ID number
- Size Standard Validation
- Complete and Maintain Compliance

[Visit SAM.GOV](https://sam.gov) →

\*DDS/CDAO do not have any involvement in this process

### **3. After Registering**

#### **To Review and Bid On Opportunities**

Visit SAM.Gov to review and bid on opportunities to work with us.\*
